Parkonect: How to Re-connect Lost Skidata Connection

Parkonect FAQs · https://qa.flashparking.com/docs/parkonect-how-to-re-connect-lost-skidata-connection/

You can reset it by:

- Stopping the adapter
- Closing the Application
- Reopening the application
- Clicking the Start button

The adapter is usually hosted on a dedicated PC next to the DAZ/DAU.

If you can’t find it, please reach out to your SKIDATA Helpdesk as they have the remote control accessibility over the PC hosting the App and can assist.
